Subject: HANFORD....FW: would you suggest a time frame for RTC meeting?

Adam & Andy

Can you please follow-up on this. I don't want to be stuck in the middle but seems as though I am b/c John wanted this discussion as part of the Regional Compliance Forum call (which is NOT appropriate).

Thanks,

Cheryl

Would you suggest a time frame for meeting on this?
We're trying to get the Ecology order signed by the end of April.
I would like to have our data management issues hashed out before then,
so I can give clear direction to my staff.
Thanks!

Subject: RE: agenda item for quarterly R10 Compliance Forum conference call

John,
Indeed this is a very important conversation for our two agencies to have. However, I try to keep the calls geared to issues that impact more than one facilities.
I strongly suggest that we have our two offices (including our data managers) have a separate call to hash out the data issues surrounding the pending orders.

Thanks for bringing this important topic to my attention!

Cheryl

Subject: agenda item for quarterly R10 Compliance Forum conference call

Could we discuss how to track Return to Compliance (RTC) for pending EPA & Ecology enforcements at Hanford? Specific items to discuss:

The EPA Order will require submittal of permit modifications to Ecology. Some of the permit modifications will be for "closure units" and closure will be required.

Is EPA going to track the RTC, and enter the RTC date in RCRA info individually for each DWMU?

Is the RTC date the date when DOE submits the permit mod to Ecology, when Ecology approves the closure plan (for closure units), or when Ecology approves the permit modification?

For the Ecology order, we expect to have multiple elements requiring RTC. Should Ecology enter each element into RCRA info individually, or should we have one RTC date when all of the elements are completed?

Thanks,

John B. Price
